MV4x

Quad Multi-Viewer

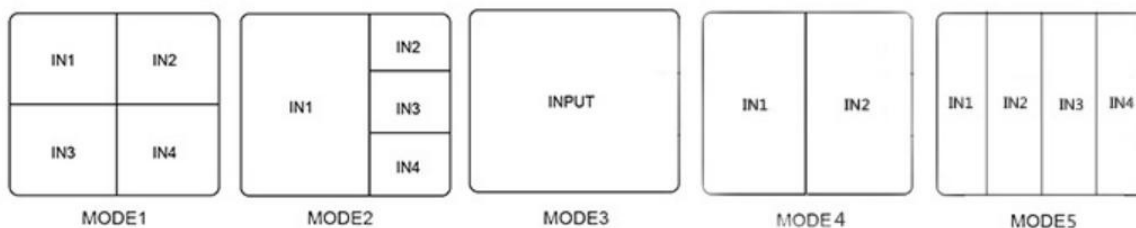

FUNCTIONS & FEATURES

MV4x is a quad multi-viewer video wall controller for LCD TVs, ultra-narrow bezel Video-Wall screens and HD projectors.

It can display 4 HDMI digital video signals through its HDMI output on the same screen:
 = 1 LCD TV or any other display device.

This equipment has 5 functioning modes in order to suit the user's specific needs:

- Mode 1: Quad screen.
- Mode 2: One main and triple small screen
- Mode 3: One screen
- Mode 4: Double screen
- Mode 5: Quad screen.

MV4x is using High-Definition processing chip to support up to 1080p input and output signals, interface includes:
 = 4 x HDMI inputs and 1 x HDMI output.

The product is simple and easy to operate because its multi-viewer processor, which is designed with infrared remote control. It can also be accessed through front panel buttons with one-click shortcut control function. All the video input signals can be switched with audio interfaces to achieve a synchronized output.
