Matrox Mx.tools version 4.2 **NEW**

Matrox Mx.tools 4.2 provides the following new features:

- Support for Microsoft Windows 7 Professional and Ultimate (64-bit).
- Support for Adobe Premiere Pro and Media Encoder CS4 4.2 or later (earlier versions of Adobe Premiere Pro and Media Encoder are not supported).
- Support for the Matrox CompressHD card, which provides accelerated H.264 encoding for Blu-ray Disc, the web, and mobile devices.
- Improved Adobe After Effects render performance when the "Multiprocessing" option is enabled.
- The following improvements for working with Matrox sequences in Adobe Premiere Pro:
 - Support for P2 spanned clips and P2 metadata.
 - Improved performance for editing AVCHD and AVC-Intra clips.
 - Improved playback performance of Adobe native effects and non-realtime clips.
 - Overall playback and stability improvements.

[Download update to Matrox Mx.tools 4.2 now](#)¹ (January 15, 2010, 174 MB)

This is a smaller download for users that are currently running Mx.tools 4.1, and are not upgrading to Windows 7.

[Download Matrox Mx.tools 4.2 DVD content now](#)² (January 15, 2010, 2.86 GB)

This is the full Mx.tools 4.2 installation, and does not require a previous Mx.tools version to be installed on your computer. **Note:** You'll need this full installation to install Mx.tools 4.2 on a Windows 7 system.
